DECLARATION UNDER 37 C.F.R. § 1.132

1. We, Kathy Hancock, Ph.D., Victor C. W. Tsang, Ph.D., and Patricia P. Wilkins, Ph.D. are co-inventors named in the above-referenced patent application.
2. We have read and understand the above-referenced patent application, including the pending claims, and the Restriction Requirement dated August 12, 2003.
3. It is our understanding that in Paragraph 4 of the Restriction Requirement of August 12, 2003, a lack of unity of invention was found for inventions I through XV on the ground that Greene et al. (*Mol. Biochem. Parasitol.* 99:257-61, April 1999). [Although cited as "Ryan et al." in the Restriction Requirement, the correct citation for this document is "Greene et al."] That document discloses subject matter derived from three of the four co-inventors of the present application (inventors Greene, Wilkins and Tsang). Specifically, the document discloses protein purification methods used to obtain sequences for fragments of the full-length proteins. The other co-inventor of the present invention (Kathy Hancock) was not involved in the protein purification aspect of the project, and was thus not listed as a co-author of the manuscript. However, co-inventor Hancock is a co-inventor of the subject matter claimed in the above-
